

shin + calf weekly tracker

week of: _____

task	m	t	w	t	f	s	s
tibialis raises — 3×15							
calf raises (straight leg) — 3×12							
calf raises (bent knee) — 3×12							
ankle mobility (knee to wall) — 10/side							
short foot (arch lift) — 5–10s × 5							
optional: easy walk (10–30 min)							
optional: deep nasal breathing (2 min)							

exercise notes (quick setup cues)

- **tibialis raises:** lean back against a wall, heels planted. lift toes toward shins slowly. no rocking.
- **calf raises (straight leg):** stand tall, knees straight. rise onto toes, control the descent.
- **calf raises (bent knee):** slight knee bend, torso upright. targets the deep soleus muscle.
- **ankle mobility (knee to wall):** foot flat, knee tracks forward over toes. heel never lifts.
- **short foot:** gently lift the arch by drawing ball of foot toward heel. do not curl toes.
- **deep nasal breathing:** slow nasal inhale, longer relaxed exhale. diaphragm does the work.
